

COVID-19 Global Tracker — Real Data Report

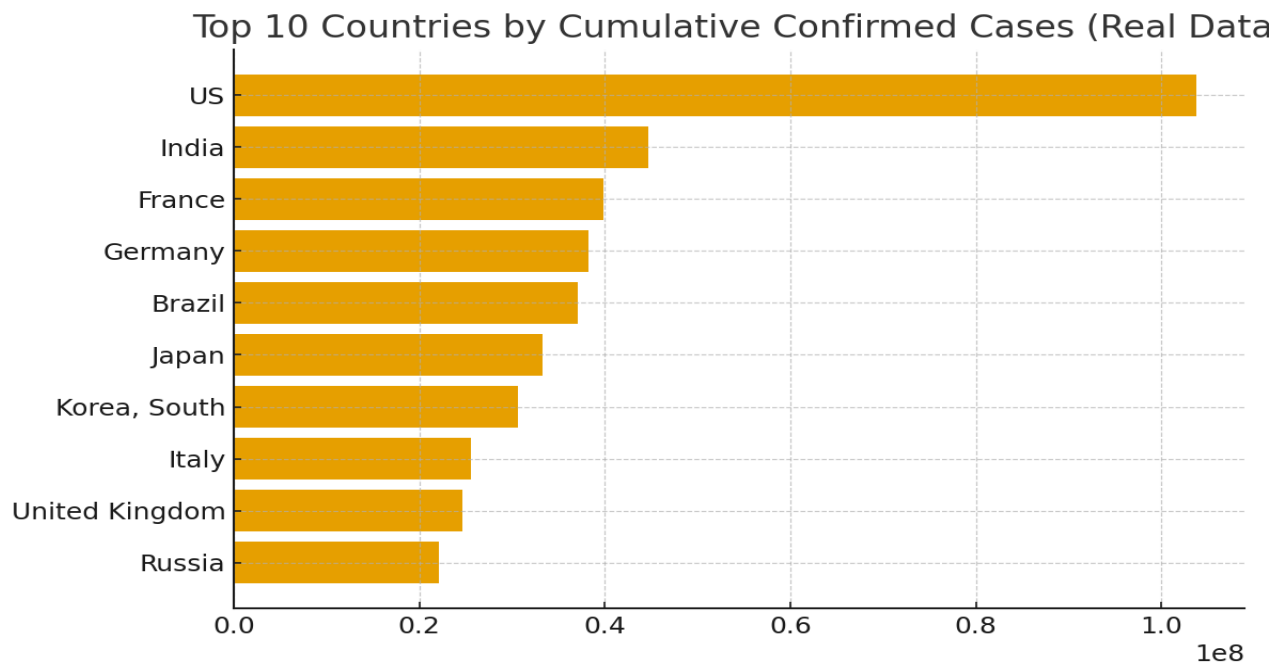

Data source: Johns Hopkins CSSE time series (confirmed). Latest date in uploaded file: 2023-03-09

Global Daily New Cases with 7-day Average (Real Data)

Interpretation: 7-day average smooths daily reporting noise; look for sustained rises/falls.

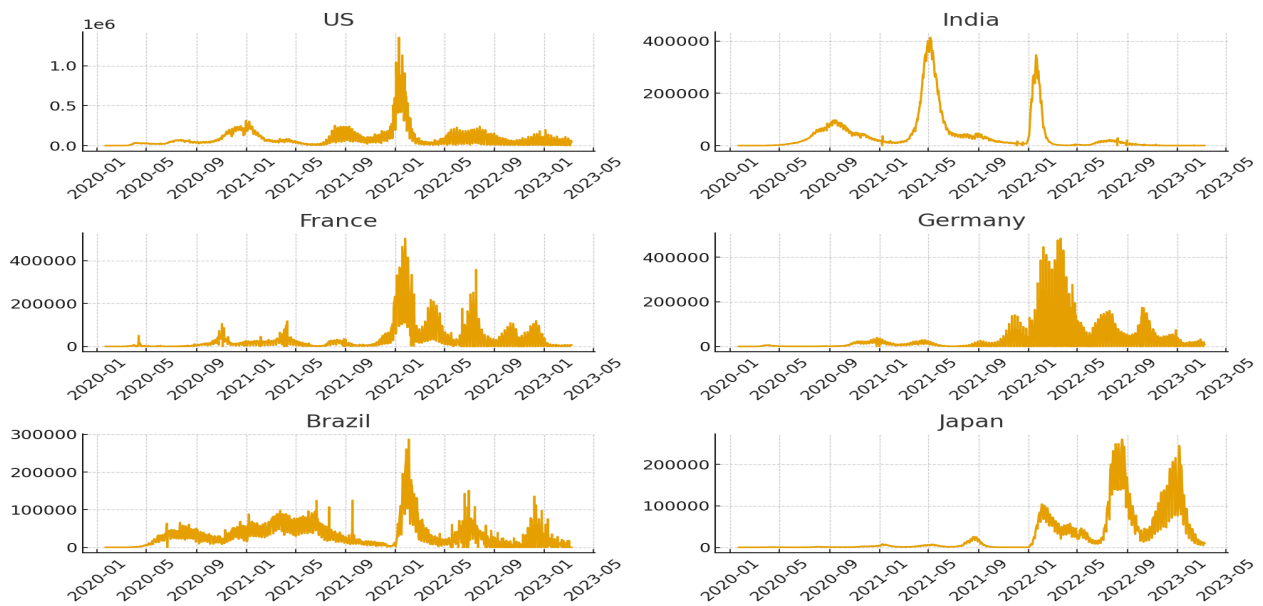

Top 10 Countries by Cumulative Confirmed Cases (Real Data)

Interpretation: Shows total burden; compare with per-capita for fairness.

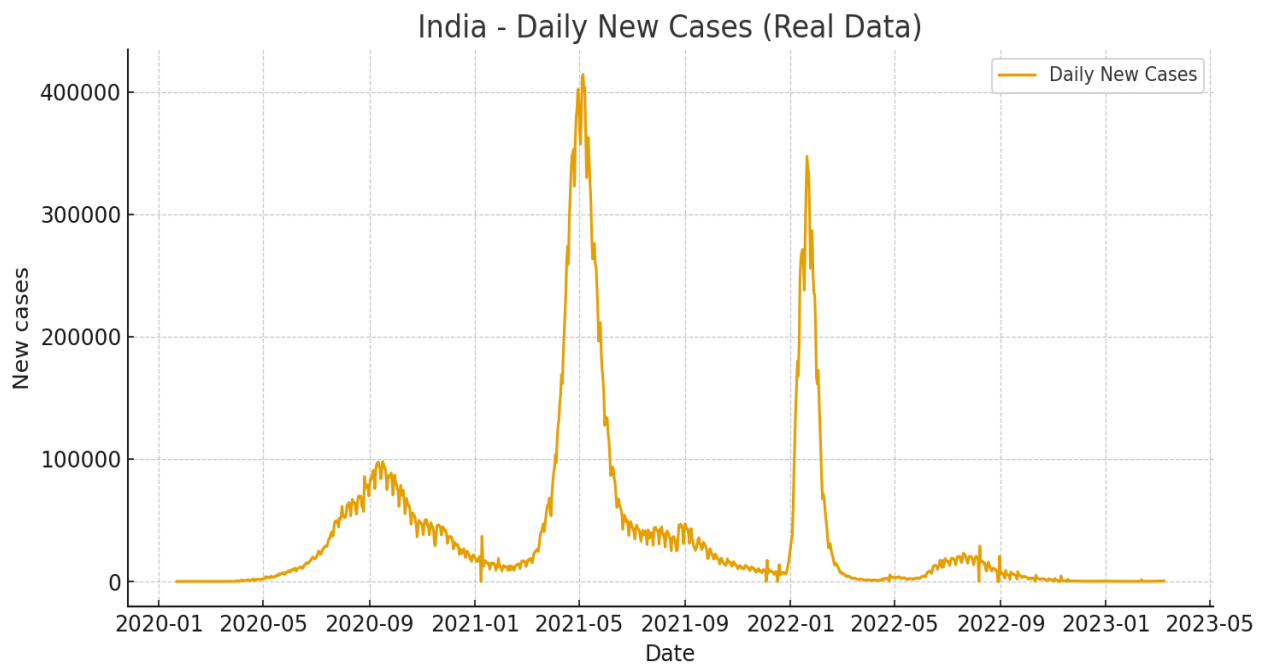

Small Multiples: Daily New Cases for Top 6 Countries (Real Data)

Daily New Cases - Small Multiples (Top 6 Countries)

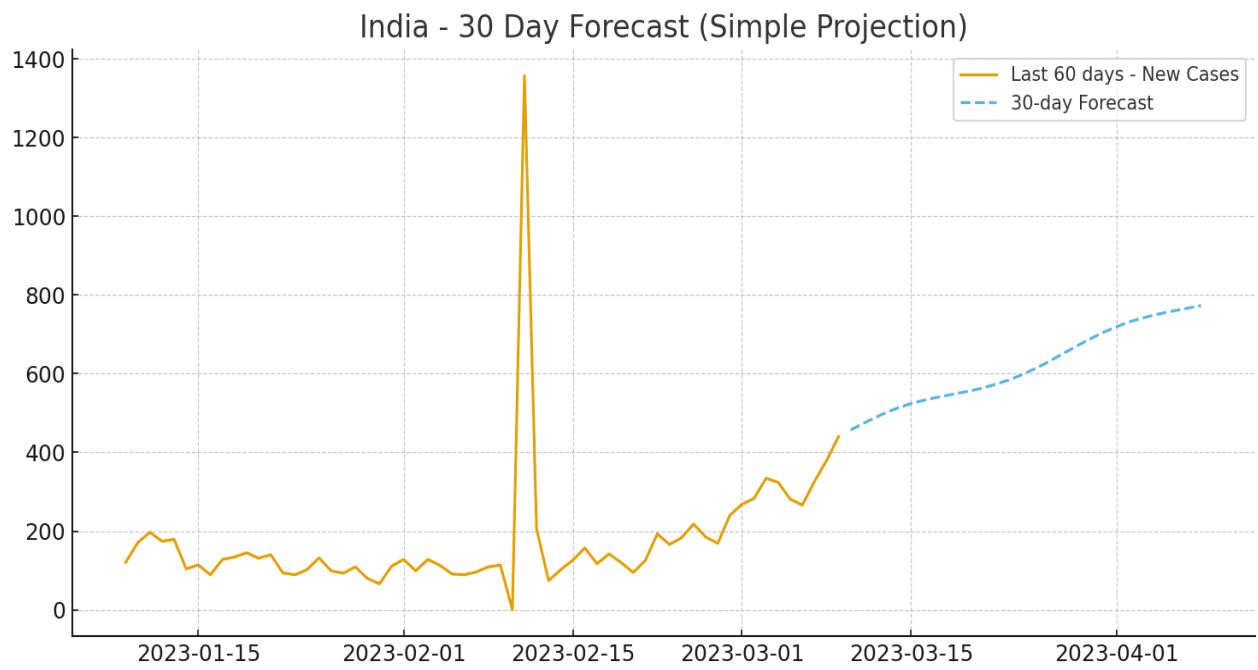

Interpretation: Compare wave timing and peaks across nations.

India — Daily New Cases (Real Data)

Interpretation: Daily case pattern for India; use filters to inspect state-level data.

India — 30-Day Forecast (Simple Projection)

Interpretation: Simple short-term projection; treat as indicative, not definitive.

Appendix — Top 10 countries snapshot (latest cumulative confirmed)

1. US: Confirmed=103802702
2. India: Confirmed=44690738
3. France: Confirmed=39866718
4. Germany: Confirmed=38249060
5. Brazil: Confirmed=37076053
6. Japan: Confirmed=33320438
7. Korea, South: Confirmed=30615522
8. Italy: Confirmed=25603510
9. United Kingdom: Confirmed=24658705
10. Russia: Confirmed=22075858
